

▶ You Will Loose

24 reden om niet te betalen

The threat of ransomware is only just beginning. In fact, nearly 50% of organizations have suffered at least one ransomware attack in the past 12 months,¹ and estimates predict this will continue to increase at an exponential rate. While healthcare and financial services are the most targeted industries, no organization is immune. And the cost? Nothing short of exorbitant.

Ransomware is indeed big business. But to win the war against this cyber threat, without paying a king's ransom, you need a strong defense. Rather than arming yourself with catapults and battering rams, consider these six tips to protect against the threat of ransomware and take control of your enterprise's kingdom for good.
